

**EAGLE
POINT**

In-Depth Look

Construction Details

Save time...include pre-drawn details in your designs.

Construction Details contains a comprehensive set of over 2000 pre-drawn details that come in AutoCAD DWG format and include manufacturer specific details, such as AlphaPrecasts, Bomanite, TORO and WeatherMatic.

IRRIGATION DESIGN DETAILS

Choose from irrigation design accessories, drip, piping, valves, controllers, mounting and sprinklers.

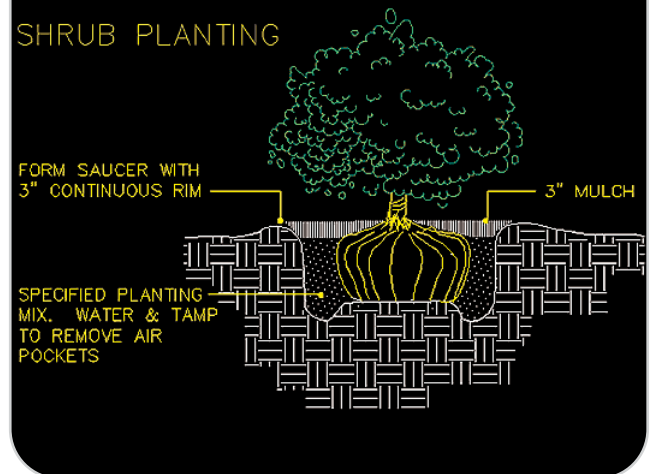

CIVIL DESIGN DETAILS

Choose from drainage, bumper stops and curbs, parking, soil stabilization, erosion control, paving, site utilities and many more.

SITE DESIGN DETAILS

Choose from arbors, fences, lighting, planting, shelters, site furniture, sports fields, walls, decks and bridges, fountains and pools, playground equipment, railing and protective devices, signage, site design for the handicapped, steps and ramps and many more.

SHRUB PLANTING

"Ray Carlson and Associates have been using Eagle Point software since release 13. The use of Eagle Point has been a tremendous asset to our company. The features of the modules we use are outstanding as far as ease of use and easy to learn."

- Eric Barndt
Land Surveying
Ray Carlson & Associates, Inc.
